

Strategic Outcomes

Our school will...

- Build capacity around project based inquiry by providing PD
 - Interdisciplinary areas
- Understand students' needs in an effort to offer opportunities for academic and personal growth in a changing world
 - PBIS-instilling a positive and proactive vs punitive behavioral intervention approach to support students in the school
 - OJT/Internship opportunities
 - Ex: Project Search
 - Post-Secondary Planning
 - Credit Recovery
 - Digital Learning
 - Social Emotional Learning/Self Regulation
 - Life Skills
 - Communication
 - Manners/Etiquette
 - Problem Solving
 - Identifying and finding resources
- Maintaining an equity lens in everything we do: curriculum, decision making, instructional practices, access to materials and opportunities, etc
- Utilize community resources to support mental & chemical health (Canvas Health, Lakes Center For Youth and Families)
- Build relationships through Ranger Hour by assigning 10-15 students to staff members in an effort to personalize learning (CLP's, career and college readiness, and internships) *Note: program shifts to be determined
- Build capacity around MTSS and PST; having representation at a district level
- Utilize positive language in all areas
- Analyze various types of data to determine academic and social needs building wide
