

Share real world skills with your favorite student.

Research shows how important it is for parents to be actively involved in their child's education. You can have an impact by becoming a Junior Achievement volunteer. JA provides hands-on, interactive activities that help kids connect what they are learning in the classroom with real world skills. We make it easy for you to help inspire and prepare young people to succeed in school and beyond.

Parents Needed

Wyoming Elementary

Your skills. Their future. Volunteer today!

As a volunteer, you will visit the classroom for five visits ranging from 30-45 minutes a visit. All materials come with step-by-step instruction to ensure that your volunteer experience is positive and rewarding.

Visit jaum.org/programs to learn more about the JA programs that will be offered at your child's school.

These materials were created by Junior Achievement. This is not a Forest Lake Area School District sponsored or endorsed activity.
