

**INDEPENDENT SCHOOL DISTRICT 831
FOREST LAKE AREA SCHOOLS**

**Secondary School
Student Code of Conduct**

I. STATEMENT OF PHILOSOPHY

The School Board firmly believes that learning can best take place in an orderly environment and that students can best learn individual and collective responsibility and gain maturity if they are provided opportunities in which to exercise responsibility within the school setting. This School Discipline Policy is intended to communicate expectations regarding acceptable conduct in school in order to provide a positive learning environment for all students.

It is a responsibility of the School Board, administrators and teachers to safeguard the health and safety of each student. The School Board and district administrators will support district personnel who, in dealing with students on disciplinary matters, act in accordance with State Law, Department of Education Regulations and School District policies.

The School Board recognizes its responsibility to meet the educational needs of students who do not respond well to normal school programs. Such efforts may include utilizing special services personnel and outside referral agencies and/or adjusting normal school procedures. If a student does not respond to these efforts and consistently exerts a disruptive influence on the educational environment of a school, the needs of the other students and staff must become a major factor in planning alternatives.

With due consideration to these obligations, it is the responsibility of the School Board and administrators to make reasonable rules and regulations for the governing of student behavior and conduct. Building principals and appropriate staff will annually review this policy to assess its effectiveness. All rules and regulations regarding student conduct and misconduct will be approved annually by the School Board. Discipline of students with individualized education programs (IEP) will be consistent with state and federal laws.

The District believes that positive, proactive behavior strategies are effective in minimizing disruptive behavior. Programs and practices are in place throughout the district that promote the use of positive behavior supports and interventions, including training on the communicative intent of behavior, relationship building and de-escalation strategies.

Physical holding or seclusion are never used as a method of discipline or punishment. Such procedures may be used in a situation where immediate intervention is needed to protect a child or other individual from physical injury. The district's policy regarding the use of restrictive procedures will be detailed in the District's restrictive procedures plan, which will be included on the District's website.

II. SECONDARY SCHOOL CODE OF CONDUCT

The Secondary School Student Code of Conduct is in effect from the time a student arrives at the bus stop and boards the bus at the beginning of the day until the student gets off the bus and leaves the bus stop at the end of the day and at all times when students are participating in school-sponsored activities.

 2. Students using any of the above substances during a school-sponsored activity will be removed from the activity for the remainder of the year. All other rules as specified in the Secondary School Code of Conduct will also apply to school-sponsored activities and clubs.

School sponsored activities include, but are not limited to, co-curricular events, field trips, and club activities.

In addition, all school bus/bus stop misconduct will be reported to the District's Transportation Safety Director. Serious misconduct will be reported to the Department of Public Safety and may be reported to local law enforcement.

(1) School Bus and Bus Stop Rules.

The School District school bus safety rules are to be posted on every bus. If these rules are broken, the School District's discipline procedures are to be followed. Consequences are progressive and may include suspension of bus privileges. It is the school bus driver's responsibility to report unacceptable behavior to the School District's Transportation Office/School Office.

On a take home route, a school bus driver shall have the authority to remove a student from the bus for one day for misbehavior considered to be causing an immediate and substantial danger to self or surrounding persons or property, provided the driver follows the administrative regulations addressing these suspensions, as outlined in the Driver's Handbook.

 It is expected that students pursue their academic studies in an honest manner and with integrity. Work that is turned in for credit needs to result from the student's own efforts. Academic dishonesty includes but is not limited to two major areas: cheating and plagiarism. Cheating is a deceptive act in which a student attempts to show knowledge which is not theirs. Plagiarism is presenting information from someone else, as though the ideas, words, or facts are the student's own.
 Minimum Action: Student conference, parent/guardian contact.
 Maximum Action: Expulsion or exclusion.

F. Corrective Measures

Discipline should not be confused with punishment. The goal of discipline is a self-regulated individual with mature attitudes and socially-acceptable standards of conduct.

Corrective measures used will depend upon the nature of the behavior, the frequency, and the degree to which the student is willing to try to correct undesirable behavior.

With the exception of serious violations of the Student Conduct Code, corrective measures will normally begin at a minimal level and then proceed to more serious levels. These procedures may include but are not limited to: conferences with teacher, counselor, or principal; detention; loss of school privileges; parent/guardian conference with school staff; modified school program; school transfer; dismissal for one day; suspension; referral to Superintendent or designee; expulsion; police referral; court referral and home instruction.

1. Student Conference

Conferences will be conducted with students regarding disciplinary matters to insure due process. (Conferences by school administrators are not required for discipline action under Article III G. Removal of Student From Class by the Teacher.) Each student facing the imposition of disciplinary action under this code of conduct must be informed, orally or in writing, of the facts and the nature of the conduct which has been challenged and be given an opportunity to explain his or her version of the facts or conduct which has been challenged prior to the imposition of discipline.

2. Parent/Guardian Contact

Depending on the violation and the seriousness of the action, a student's parent/guardian may be contacted by telephone or mail in addition to a student conference. The intent of the contact is to inform the parent/guardian of the violation and the student's attitude during the conference and to elicit parent/guardian support for correcting the unacceptable behavior.

3. Parent/Guardian Conference

The principal, assistant principal, counselor, or teacher may request a parent/guardian conference, with or without the student present, to insure parent/guardian understanding of the student's academic and/or behavior problem and to mobilize a cooperative effort to correct the difficulty.

4. Detention

Detention may be required of a student for one or more breaches of the code of conduct. Student failure to serve detention on the assigned date(s) will result in either an increased term of detention, assignment to an alternative program, in-school restriction or suspension. Every effort will be made to insure that students will be doing school work during this time.

a. Teacher's Detention

A teacher may detain a student after school to correct a student's unacceptable behavior. Parents/Guardians are to be informed of a student detention and teachers will document notice to parents/guardians that detention has been scheduled.

b. Administrative Detention

Students may be detained by the Administration for the following reasons:

- (1) Excessive tardiness to school or class.
- (2) Unexcused absence from school or class.

- (3) Deliberate disrespect and/or insubordination.
 - (4) Disciplinary reasons in the school or classroom.
- Parents/Guardians are to be informed of a student detention and principals will document notice to parents/guardians that detention has been scheduled.

5. Restorative Justice

The appropriate administrator may require the student to complete an activity or function that is designed to increase the student's sense of connectedness to his/her school community and/or to increase the student's sense of awareness of the impact of the inappropriate behavior. Restorative justice is intended to be a positive experience and does not include placing requirements upon students that would serve to humiliate or ostracize a student. Restorative justice could include activities such as a writing assignment asking the student to reflect on his/her conduct, cleaning of fixtures or equipment if such assignment is reasonably related to the misconduct, or assisting a teacher or another student in approved activities.

6. In-School Monitoring

Students may be required to have an hourly report signed by their teachers verifying their movement in the building during the day. The report will be picked up daily from a designated person and returned to a designated person at the end of the day for verification of the student's movements. Parents/Guardians are often notified of this arrangement.

7. Referral to Community Services Agencies

When necessary school authorities will refer students to Community Services agencies including mental health agencies consistent with Minnesota statutes. The parents/guardians will be consulted when appropriate if any community service is to be used for a student or if a student will be referred to a community resource.

8. Suspension (M.S. 121A.41 Subd. 10)

"Suspension" means an action taken by the school administration prohibiting a student from attending school for a period of not more than ten consecutive school days. The suspension period may be extended an additional five days when it is determined that the student will create an immediate and substantial danger to persons or property around him/her. The purpose of suspension is to remove the student from the school environment and to provide time for the professional staff, parent/guardian and student to discuss the matter and bring about an agreement on future conduct.

9. Alternative Program

"Alternative Program" means educational opportunities made available within the School District, but which may be at a site different from a student's originally assigned school or schedule. In-school restriction is an example of an alternative program. After a student returns from an alternative program, in-school monitoring may be used as a sincere attempt to assist the student in his/her adjustment to the school rules and environment.

10. Administrative Transfer

A principal may recommend an administrative transfer of a student to another Forest Lake Public School by a direct request to the Superintendent.

11. Expulsion or Exclusion

"Expulsion" means an action taken by the School Board to prohibit an enrolled student from further attendance for a period that shall not extend beyond an amount of time equal to one school year from the date a student is expelled. (M.S.

121A.41, Subd. 5). "Exclusion" means an action taken by the School Board to prevent enrollment or re-enrollment of a student for a period that shall not extend beyond the school year (M.S. 121A.41, Subd. 4).

12. Referral to Police or Juvenile Authorities

When a student's misbehavior is so extreme that it may involve the violation of a law, police or juvenile authorities will be contacted by the Principal or a designated representative. Every reasonable attempt shall be made to notify parents/guardians at the same time juvenile authorities are called. If the officer indicates that he/she is arresting the student, with or without a warrant, that officer shall have complete jurisdiction and responsibility in the matter and the Principal shall not interfere with the student's removal from the building. It is expected that the contact with the student shall be arranged in a manner to make it as unobtrusive as possible.

13. In-School Restriction

In-School Restriction (ISR) may be required of a student for one or more breaches of the Code of Conduct. Students placed in ISR are required to remain in one room for a designated period of time. Students in ISR are under the supervision of school staff and are given ISR and/or homework assignments which must be completed.

14. Students with Disabilities

Students who are currently identified as eligible under the IDEA or Section 504 will be subject to the provisions of this policy, unless the student's IEP or 504 plan specifies a necessary modification. Before initiating an expulsion or exclusion of a student with a disability, relevant members of the child's IEP or 504 team and the child's parent shall, consistent with federal law, conduct a manifestation determination and determine whether the child's behavior was (i) caused by or had a direct and substantial relationship to the child's disability and (ii) whether the child's conduct was a direct result of a failure to implement the child's IEP or 504 plan. If the student's educational program is appropriate and the behavior is not a manifestation of the student's disability, the school district will proceed with discipline - up to and including expulsion - as if the student did not have a disability, unless the student's educational program provides otherwise. If the team determines that the behavior subject to discipline is a manifestation of the student's disability, the team shall conduct a functional behavioral assessment and implement a behavioral intervention plan for such student provided that the school district had not conducted such assessment prior to the manifestation determination before the behavior that resulted in a change of placement. Where a behavioral intervention plan previously has been developed, the team will review the behavioral intervention plan and modify it as necessary to address the behavior. When a student who has an IEP is excluded or expelled for misbehavior that is not a manifestation of the student's disability, the school district shall continue to provide special education and related services during the period of expulsion or exclusion.

 - b. When May a Student Be Removed: A student may be removed from class when in the judgment of the teacher, supervisor, or administrator authorized to remove said student, the student has violated one or more of the grounds listed for removal from class.
 5. Procedures for Removing Students, Parent/Guardian Notification, Responsibility for Students Removed and Period of Time of Removal:
 - a. Procedure for Removal from Class: When a teacher or supervisor authorized to remove a student from a class determines that a student has violated one of the grounds for removal from class, that individual will advise the student of the reason for removal from class, give the student an opportunity to respond, and give the student a removal from class notice. The student will be instructed to report directly to the Principal's/Assistant Principal's/Dean's office with that notice. If, in the judgment of the teacher or supervisor, allowing the student to report to the office unescorted may endanger the student, other individuals, or School District property, the teacher or supervisor should escort the student to the office or request assistance from the office in escorting the student to the office.
 - b. Parent/Guardian Notification: Teachers or supervisors removing students from class are strongly encouraged to notify parents/guardians by telephone of the removal.
 - c. Responsibility for Students Removed: Once a student arrives in the Principal's/Assistant Principal's/Dean's office, the custody of and responsibility for that

student during the time of removal from class will rest with the building Principal/Assistant Principal/Dean. The building Principal/Assistant Principal/Dean will designate a supervised area to which the student is to report and remain during each period of removal from class. If the length of removal from class is for more than one class period, the classroom teacher or supervisor will submit assignments for the student. The assignments are to be submitted to the Principal/Assistant Principal/Dean or his/her designee, prior to the start of the second consecutive class period of removal from class.

- d. Length of Time of Removal: A student's regular classroom teacher, supervisor, or the building Principal or Assistant Principal, may remove a student from class for up to three consecutive class periods for a single violation of the "Grounds for Removal From Class" as found in Section III of this policy. The actual number of class periods of removal up to the maximum of three, shall be at the discretion of the teacher or supervisor removing the student. A substitute teacher or supervisor may remove a student from a class in which he or she is in charge for up to three consecutive class periods, or during the consecutive class periods when he or she is the substitute in charge of that class if less than three.
 - e. In the case of a student with a disability, the student's individual education program team shall meet immediately but not more than ten (10) school days after the date on which the decision to remove the student from the student's current education placement is made. The individual education program team must review all relevant information in the student's file to determine if the conduct in question was (i) caused by, or had a direct and substantial relationship to, the child's disability, or (ii) the direct result of the school's failure to implement the individual education program. This is referred to as a "manifestation determination meeting."
6. Procedures for Return of Students to Class:
- a. Removal for One Class Period or Less: The minimum procedure for return to class after a removal of one class period or less shall be an informal conference between the student removed and the teacher, supervisor, or building Principal or Assistant Principal who removed the student.
 - b. Removal for More Than One Class Period: The minimum procedure for return to class after a removal of more than one class period shall be a conference between the student removed, the teacher or supervisor who removed the student, and the building Principal or Assistant Principal. Additional procedures may be established by the teacher or supervisor removing the student after consultation with the Principal or Assistant Principal.

H. Student Searches

1. Locker Searches

School lockers are the property of the School District. At no time does the School District relinquish its exclusive control of lockers provided for the convenience of students. Inspection of the interior of lockers may be conducted by school authorities for any reason at any time, without notice, without student consent, and without a search warrant. The personal possessions of students within a

school locker may be searched only when school authorities have a reasonable suspicion that the search will uncover evidence of a violation of the law or school rules. As soon as practicable after the search of a student's locker, school authorities must provide notice of the search to students and the student's parents whose lockers were searched unless disclosure would impede an ongoing investigation by police or school officials.

2. **Personal Possession Searches**

The personal possessions of students whether on their person, in desks, in backpacks or purses, in cell phones or other recording devices, lockers or cars parked in the school parking lot may be subject to a reasonable search when the School District has a reasonable, individualized suspicion that evidence will be produced showing that the student violated the law or school rules.

3. **School officials may seek assistance from law enforcement if deemed necessary. As soon as practicable after the search of a student's personal possessions, school authorities must provide notice of the search to students and the student's parents whose personal possessions were searched unless disclosure would impede an ongoing investigation by police or school officials. Students who refuse to comply or impede an investigation will be in violation of policy and subject to further disciplinary action.**
