Required courses are listed below in column A. Students must consult with their math teacher about their recommended math course. Students also choose four half credit (.5) elective classes. Electives are listed on the back of this sheet. Write elective course names and course numbers that you choose in column A. Year long courses have two sets of numbers and take up two spaces. Choose five alternate elective courses and course numbers in column B.

Students with demonstrated need of additional support may be assigned intervention course(s) in math and/or reading in place of one or more elective classes and/or based on special education services.
