Required courses are listed below in column A. Students choose four half credit (.5) elective classes. Electives are listed on the back of this sheet. Write elective course names and course numbers that you choose in column A. Year long courses have two sets of numbers and take up two spaces. Choose five alternate elective courses and course numbers in column B. If you are a student currently in an immersion program and are electing to take Spanish in 7th grade simply write Spanish for two electives. Leave the course number blank. Toward the end of your 6th grade year your teacher will have you take an assessment to help determine which Spanish course(s) in middle school would be the right fit for you. Students will earn high school elective credit for Spanish or Immersion Spanish, with a passing grade. Spanish I and Immersion Spanish are courses that are also part of the student's high school transcript and high school GPA.

Students with demonstrated need of additional support may be assigned intervention course(s) in Math and/or Reading in place of one or more elective classes and/or based on special education services.
